

Here is Laurie J.

...

Laurie again ...

And Laurie again ...

But it's true... You were not here at the begining of the story...

## **Presentation of the Caribbean Medical and Pediatrician Cooperation Program, implemented by ESA-Caraïbes:**

**This two-years program aims to set up a coordination of specialized pediatric care and trainings for health professionals in the Caribbean.**

It includes the three following components: training; specialized consultations in specific areas such as pediatric cardiology and neurology; and hospitalization in Martinique for specific pathologies that can not be treated in the concerned countries.

**Countries concerned with the project:** Martinique, Haiti, Dominica, St Lucia, Grenada, St Vincent

**Beneficiaries:** (total beneficiaries for 24 months duration)

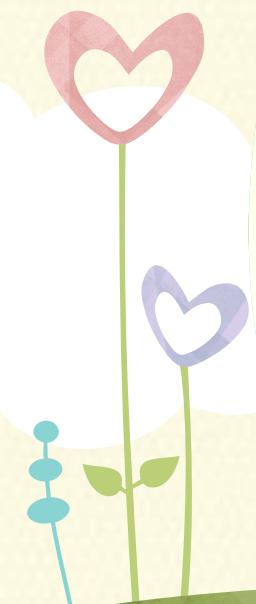

- Caribbean children carrying very specific pathologies (such as cardiac, neurological, cancer, and neonatal) from different islands in the Caribbean, including Haiti: more than 200 children for specialized consultations; 40 children for hospital care in Martinique.

-More than 250 child health professionals throughout the Caribbean region, including Haiti, for training sessions in specific areas such as cardiology, neurology and neonatology.

The program engages additional partnerships whenever needed or indicated with other French and US NGO's .

**Laurie et Willène's arrival from Haïti  
In the presence of Mr & Mrs. E.: the host family**  
**We thank AIR CARAIBES's philanthropy that facilitated Laurie & Willène's travel to Martinique**

## **ESA-CARAÏBES TEAM:**

President : Mr LEFAUCHEUR Patrice

Medical program coordinator: Dr CHALONS Serge

Program coordination assistant: Ms AUDOUX Anaïs

Host families coordination & communication : Mrs. GRANVORKA Princesse

## **CORRESPONDENTS IN HAÏTI:**

Cardiologist (Laurie medical referent): Dr THEARD Michel

Administrative coordination: Dr CASSAMAJOR Claire

## **FINANCIAL & TECHNICAL PARTNERS:**

Haiti Cardiac Alliance: Mr. ROBINSON Owen

Gift Of Life International: Mr. RAYLMAN Rob

Chenn Lespwa Haiti: Dr DEGAND Margaret

Antilles-Guyane M3C Center (Interventional Pediatric Cardiac

Catheterization): Dr LUCRON Hugues

University Hospital of Martinique

Air Caraïbes

## **HOST FAMILY:**

Mr. & Mrs. Hugues and Danièle E.

# Patient Laurie J. reception and care

(05/07/2014)

Blood assessment, Chest X ray, anesthesia and cardiac consultations  
(07/07/2014)

Interventional cardiac catheterization  
(08/07/2014)

Post interventional care  
(08/07/2014)

Return to the host family  
(10/07/2014)

Back to home by flight  
(19/07/2014)

# The medical intervention (interventional cardiac catheterization)

Dr Hugues LUCRON presenting the medical intervention to Laurie,  
under the watchful eyes of Willène.

# At the University Hospital of Martinique

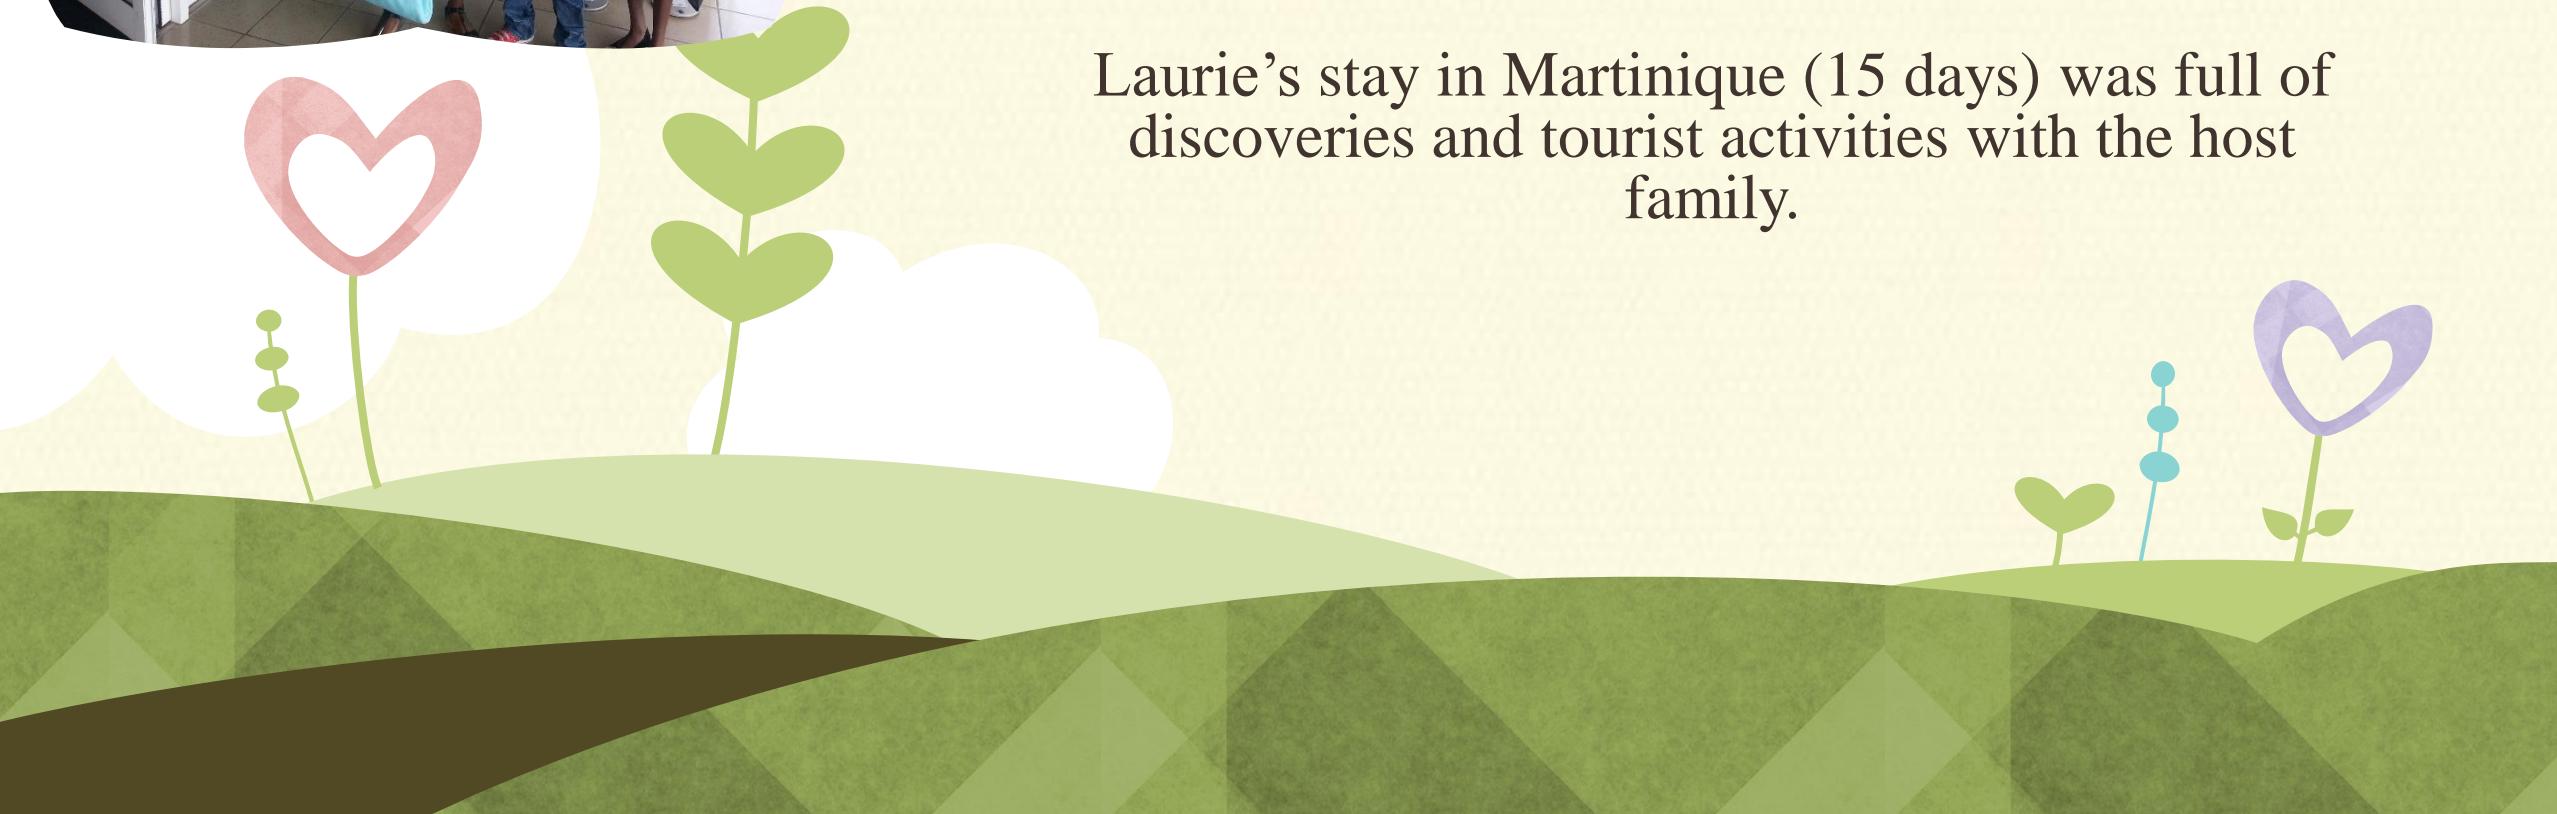

# Laurie's place for rest

## Laurie's stay

Except some headaches in post-operation, Laurie's stay at the hospital and in the host family went very well.

Laurie's stay in Martinique (15 days) was full of discoveries and tourist activities with the host family.

\* Before medical intervention

On the way back...

Here is Laurie... Going back to  
her family...
